RESEARCH EXPERIENCE FOR UNDERGRADUATES (REU) AT THE TEMPLE MATERIALS INSTITUTE (TMI)

**WHO should apply?**
This program aims to support historically underserved students with limited opportunities. In order to be eligible, applicants must be a U.S. Citizen or Permanent Resident, a rising junior or senior, be enrolled in a traditional science major, and have a minimum overall GPA of 2.85.

**WHAT is REU?**
REU stands for Research Experience for Undergraduates. The REU at Temple University is a residential research experience with renowned Professors associated with the Temple Materials Institute.

**WHERE will the research take place?**
Fellows will travel to Philadelphia and will conduct research in Temple University's state-of-the-art materials science laboratories.

**WHEN is the REU offered?**
Fellows will begin their research experience on May 20, 2019 and will conclude the fellowship on August 2, 2019 with a research symposium.

**WHY should you apply?**
The fellowship offers students an opportunity to engaging research projects spanning materials chemistry, physics, and engineering. Along with the invaluable research experience gained, fellows will receive a $6,000 stipend along with on-campus housing.

**APPLICATION DEADLINE IS MARCH 15, 2019**

A complete application package includes:

- Submission of the online application, which includes a personal statement, resume, and contact information for two letters of recommendation
- Submission of two letters of recommendation via mail or email
- Submission of an official or unofficial copy of transcripts submitted via mail or fax
